Location

Your **TCF Primary School Ilam Din & Allah Ditta Campus** is located in Mian Channu, Punjab. Mian Channu is a tehsil and city in the Khanewal District of Punjab, located 250 km on G.T road (250 KM West of Lahore and 1050 KM East of Karachi) and KLP (Karachi, Lahore, Peshawar) railway line Lahore. With a population of approximately 60,000, the agriculture based area is famous for its mango gardens and lush green fields and most of the locality earns its livelihood through agriculture related activities.

Due to cultural restrictions in the province of Punjab, young women are not allowed to attend school with male teachers and are restricted from traveling long distances to attend school. To cater to this issue, the campus has been built in close proximity to the girls' homes. Educating a generation of young women will ensure their future and their future upcoming generations because of better educated mothers.

Campus Configuration

Your campus is a standard one-unit TCF Primary School with an estimated covered area of 6,700 square feet. It is a purpose-built campus with 6 classrooms from Pre-Primary to Class V, a library/art room, administration block, play area, canteen and separate toilets for boys and girls.

Student Enrollment and Staff Strength for Academic Year 2008-2009

Classes have started in your campus since August 2008! To date, a total of 77 students are enrolled. As per TCF policy, admissions in the first operational year were only accepted for Kindergarten, Grade I and Grade II with a planned enrollment of 30 per class. The campus will see increasing admissions as the school's reputation is established in the local community.

This campus will see an even higher number of students next year as these batches graduate and new students come in.

The average female enrollment of the campus is 23%. This unfortunately low female ratio is a standard phenomenon in rural schools because of reservations of the local community in sending their daughters to new schools. TCF staff will be canvassing in the community throughout the year to increase female enrollment. Once the reputation of the school is established, the gender ratio should increase.

The campus has also created 11 employment opportunities in the area – 6 faculty and 5 administration staff are currently on the payroll.

Academic Year Aug 2008-Jul 2009					
Student Strength				Staff Strength	
Class	Boys	Girls	Total		
K.G	50	13	63	Principal	01
